## EFFECTS PEDALS

### M148 Micro Chorus

This 80's reissue delivers a stunning range of rich chorus textures, from sparkly shimmers to rotating speakers. Designed with old-school technology for warm analog tone. True bypass for pure guitar tone when the pedal is off.

MXRM148 LIST...\$139.98 NET...\$62.99

### M152 Micro Flanger

Many of the same effects of the M117 Flanger, but in a smaller size. Originally made in the 80's, it features a Speed knob that controls the rate of cycling - Regeneration manages intensity.

MXRM148 LIST...\$154.95 NET...\$69.73

## Jerry Cantrell Signature Wah Pedal

Jerry Cantrell's epic riffs and tone have been the driving force behind Alice in Chains since the late 80's. This custom wah is voiced for a tight, punchy heel-down tone, the side-control knob lets you fine tune the toe-down frequency. Features an Antique, oxidized "road worn" brass case.

JC95 LIST...\$264.99 NET...\$119.25 3+...\$112.62

### DVP1 THE NEW DUNLOP VOLUME PEDAL

Achieve thick, luscious volume swells in one smooth motion without the fear of breaking. Clean and transparent sound. Housed in a lightweight but durable aluminum chassis, the pedal features a rocker pedal that is slightly curved for ergonomics, with an aggressive non-slip tread that keeps your foot firmly in place.

DVP1 Volume Pedal LIST \$169.99 NET \$74.99

### ZW38 Black Label Chorus

The MXR Black Label Chorus is Zakk's secret weapon to thicken up his wall of distortion and add liquid dimension and texture to clean passages. Its vintage style tones are dialed in by High and Low cut filters and Level, Rate and Depth controls. For the ultimate in spatial chorusing, hook up two amps via the two outputs for a wide and sweeping stereo spread. The Black Label Chorus comes in a heavy-duty housing with durable jacks and switches.

LIST...\$170.61 NET...\$72.50 3+...\$68.24

### M288 Bass Octave Deluxe

A dual-voice octave pedal that offers organic analog tone, true bypass, and a wide variety of tone-shaping options. MXR's 18-volt Constant Headroom Technology™ (CHT) provides studio-performance headroom and superior tracking. Use the Dry knob to mix your direct bass signal with the octave effect, or hit the Mid+ switch to add up to +15dB of internally adjustable low-mid punch (400Hz) or midrange pop (850Hz). Bass players will love the two separately processed and individually voiced octave controls.

LIST...\$254.61 NET...\$108.21
